Big Pharma and Big Gov't CONCEALED heart damage caused by COVID-19 injections to push vaccine mandates

The executive branch of the federal government and Pfizer have [colluded to conceal the heart damage](#) caused by the Wuhan coronavirus (COVID-19) mRNA vaccines to push through with vaccine mandates, based on the emails obtained via a Freedom of Information Act (FOIA) request.

Analysis Project Program Director Amy Kelly expounded on this discovery. She said top public health officials collaborated with high-ranking leaders to create a "Myocarditis Email" that downplayed the relationship between COVID-19 mRNA vaccines and myocarditis.

The FOIA emails, [amounting to more than 400 pages](#), revealed the communications between the White House communications team to several officials. These officials included former National Institute of Allergy and Infectious Diseases Director Dr. Anthony Fauci; former *Centers for Disease Control and Prevention* Director Dr. Rochelle Walensky; former *Food and Drug Administration* (FDA) Acting Commissioner Dr. Janet Woodcock; former National Institutes of Health Director Dr. Francis Collins; and U.S. Surgeon General Dr. Vivek Murthy.

"Astonishingly, the emails reveal that the most senior of leaders, all the way up to the White House, knew about [heart damage linked to mRNA vaccines](#)," Kelly said. "Yet they collude behind the scenes to conceal this side effect from the American people,"

DailyClout founder and CEO Dr. Naomi Wolf meanwhile said the emails reveal a "massive crime." She remarked that public health officials nevertheless mandated the Pfizer COVID-19 injection "knowing it was killing people."

"They were reacting to the fact that blood clots and heart damage had been presented to them at scale and that the American Association of Pediatrics was warning them about myocarditis in teens, a serious, sometimes fatal disease that needs constant management," Wolf continued. "Instead of coming clean with the American people, they doubled down and made a strategy to cover it up."

McCullough: Pfizer shots should have been recalled in 2021

Dr. Peter McCullough, a renowned cardiologist and prolific researcher, has argued that the Pfizer COVID-19 vaccines should have been removed from the market in January 2021 due to safety standards and a cover-up of vaccine-related deaths.

According to McCullough, records from the FDA show that the agency has been aware of the relationship between mRNA COVID-19 vaccines and myocarditis since October 2020. About two months later, Pfizer allegedly hid information about an additional 38 deaths associated with its vaccine before a critical meeting of the FDA's Vaccines and Related Biological Products Advisory Committee.

"If they had reported these deaths, there would have been a three- to four-fold excess cardiovascular risk with Pfizer in the core slides at the Dec. 10, 2020 meeting, and Pfizer would never have been approved," he said. The alleged concealment of issues related to cardiac inflammation has led to the deaths of thousands of Americans. Dr. Bruce Boros, a cardiologist from Florida, argued that recent studies reveal the damage inflicted by mRNA from COVID-19 on the heart. He pointed to a study involving heart muscle cells in culture treated with the Moderna and Pfizer vaccines, which showed evidence of heart dysfunction and chaos in as little as 48 hours.

"Everybody who received the shot had some damage to the heart muscle. They knew it in the pre-clinical studies and they covered it up. All the signals were there, and the FDA went ahead and approved it anyway," said Boros.

"It's all a money game, a eugenics game, and they're continuing to say you need to get a booster. Now every child in the world should get this shot for a virus that has been falsely normalized as dangerous."

If one of "We The People" did this it would be considered murder, as these people made great wealth from the killing of men, women, and children, even the unborn, disgusting! And we would spend life in prison or worse, while they will retire and live pleasurable lives.

They had to conceal it. In general, people don't agree to accept a medical countermeasure if you tell them upfront, that it is designed to hurt them. Even brain-washed commie liberals would say no to that. So they lied and insisted it was safe and effective and left out the hurt part.
